Behind your back they are saying things you didn't even know

Unpleasant, ugly, fat or bad - it makes you feel alone

Leaving you with all these words, they aren't heroes, no

Lies also make you sad so don't be a liar and don't moan

Your little things make the world, so make love not war.

Be yourself

Understand everybody around you

Love your friends unconditionally

Like a free bird

Yearn for every moment without bullying

Important is to be kind to everyone

Nice people can do more

Go on, friend!

Bullying

Bad day at school, you want to hide
Under a table when he's next to you
Like me you want to dance
Like me you want to cry
You will never be happy again 'cause one
Idiot will always bully you but remember that you are
Nice and you can be better than him
Good friends can help you.

Behind the skin, flesh and bones

Under the visible nice spirit grows

Lonely

Listen! I've heard someone

Yelling inside. Rejected soul

Is waiting for someone to fill the hole

Now! We can change all the mess

Gradually into great happiness!

Bullying

Bullets can hurt, epithets hurt too

Unacceptable is beating, calling out at school

Letting bother is not very kind

Larger sin is not helping than try

Your conscience is saying “You have to help”

Is it mute or are you deaf? No, you’re only afraid

Neither bully nor others will stop

Good friends shall help, so you must react!
